CARBOHYDRATE
RESEARCH

Subject index

Acetylation, regioselective

Tin(IV)-functionalised polymer supports; non-toxic and practical reagents for regioselective acetylation of sucrose 17

6-*O*-Acetyl sucrose

Tin(IV)-functionalised polymer supports; non-toxic and practical reagents for regioselective acetylation of sucrose 17

Acid/alcohol modification

Acid modification of starch granules in alcohols: reactions in mixtures of two alcohols combined in different ratios 141

Algae

Cell-wall polysaccharides from the marine green alga *Ulva* "rigida" (Ulvales, Chlorophyta) — NMR analysis of ulvan oligosaccharides 161

AM1

AM1 calculations on inclusion complexes of cyclomaltoheptaose (β -cyclodextrin) with 1,7-dioxaspiro[5.5]undecane and nonanal, and comparison with experimental results 1

Amylopectin chain-length

A periodic distribution of the chain length of amylopectin as revealed by high-performance anion-exchange chromatography 151

1,2-Anhydro-3,4-di-*O*-benzyl- β -L-rhamnopyranose

Polymerization of 1,2-anhydro-3,4-di-*O*-benzyl- β -L-rhamnopyranose 207

O-Antigen

Structural studies of the lipopolysaccharide O-antigen and capsular polysaccharide of *Vibrio anguillarum* serotype O:2 111

Butyltin(IV) dichloride, polymer-supported

Tin(IV)-functionalised polymer supports; non-toxic and practical reagents for regioselective acetylation of sucrose 17

Capsular polysaccharide

Structural studies of the lipopolysaccharide O-antigen and capsular polysaccharide of *Vibrio anguillarum* serotype O:2 111

Chlorophyceae

Cell-wall polysaccharides from the marine green alga *Ulva* "rigida" (Ulvales, Chlorophyta) — NMR analysis of ulvan oligosaccharides 161

Con A

Failure of glucose-binding lectins Con A and Lentil Lectin to identify glycation of haemoglobin 187

Core oligosaccharide

Structure of a decasaccharide isolated by mild acid degradation and dephosphorylation of the lipopolysaccharide of *Pseudomonas fluorescens* strain ATCC 49271 129

Coxiella burnetii

Structural study on a lipopolysaccharide from *Coxiella burnetii* strain Nine Mile in avirulent phase II 175

β -Cyclodextrin

AM1 calculations on inclusion complexes of cyclomaltoheptaose (β -cyclodextrin) with 1,7-dioxaspiro[5.5]undecane and nonanal, and comparison with experimental results 1

6-Deoxy-L-talopyranose

NMR analysis of the structure of the O88 polysaccharide (O88 antigen) of *Escherichia coli* O88:K⁻:H25 223

Dipole moment

AM1 calculations on inclusion complexes of cyclomaltoheptaose (β -cyclodextrin) with 1,7-dioxaspiro[5.5]undecane and nonanal, and comparison with experimental results 1

Disaccharides, 2-thio

A nitro sugar derivative route to 2-thioepiphosphorose and 2-thiosphorose and their remarkable facile epimerization 73

Dithioacetal

Characterization and interconversions of 2-S-ethyl-2-thio-D-mannose diethyl dithioacetal and the facile epimerization of 2-thio-D-mannopyranose derivatives 53

Elicitor

Syntheses of triglycosyl tetrapeptides and a hexaglycosyl tetrapeptide 81

Epimerization

Characterization and interconversions of 2-S-ethyl-2-thio-D-mannose diethyl dithioacetal and the facile epimerization of 2-thio-D-mannopyranose derivatives 53

Escherichia coli

NMR analysis of the structure of the O88 polysaccharide (O88 antigen) of *Escherichia coli* O88:K⁻:H25 223

Fungi

Structural investigation of a cell-wall galactomannan from *Neurospora crassa* and *N. sitophila* 215

Galactoglucan

NMR analysis of galactoglucan from *Pseudomonas marginalis*: assignment of the ¹H and ¹³C NMR spectra and location of succinate groups 195

Galactomannan

Structural investigation of a cell-wall galactomannan from *Neurospora crassa* and *N. sitophila* 215

GLA-60

Syntheses of 1-O-carboxyalkyl GLA-60 analogues 27

GLA-60, 1-O-carboxyalkyl

Syntheses of 1-O-carboxyalkyl GLA-60 analogues 27

Glycohaemoglobin

Failure of glucose-binding lectins Con A and Lentil Lectin to identify glycation of haemoglobin 187

Glycohaemoglobin-lectin binding

Failure of glucose-binding lectins Con A and Lentil Lectin to identify glycation of haemoglobin 187

Glycopeptide

Syntheses of triglycosyl tetrapeptides and a hexaglycosyl tetrapeptide 81

High-performance anion-exchange chromatography

A periodic distribution of the chain length of amylopectin as revealed by high-performance anion-exchange chromatography 151

Inclusion complexes

AM1 calculations on inclusion complexes of cyclomaltoheptaose (β -cyclodextrin) with 1,7-dioxaspiro[5.5]undecane and nonanal, and comparison with experimental results 1

Lentil Lectin

Failure of glucose-binding lectins Con A and Lentil Lectin to identify glycation of haemoglobin 187

Limit dextrins

Acid modification of starch granules in alcohols: reactions in mixtures of two alcohols combined in different ratios 141

Lipopolysaccharide

Structure of a decasaccharide isolated by mild acid degradation and dephosphorylation of the lipopolysaccharide of *Pseudomonas fluorescens* strain ATCC 49271 129

Structural study on a lipopolysaccharide from *Coxiella burnetii* strain Nine Mile in avirulent phase II 175

LPS antagonist

Syntheses of 1-O-carboxyalkyl GLA-60 analogues 27

Marginalan

NMR analysis of galactoglucan from *Pseudomonas marginalis*: assignment of the ¹H and ¹³C NMR spectra and location of succinate groups 195

Neurospora crassa

Structural investigation of a cell-wall galactomannan from *Neurospora crassa* and *N. sitophila* 215

Neurospora sitophila

Structural investigation of a cell-wall galactomannan from *Neurospora crassa* and *N. sitophila* 215

NMR

NMR analysis of galactoglucan from *Pseudomonas marginalis*: assignment of the ¹H and ¹³C NMR spectra and location of succinate groups 195

NMR spectroscopy

Structural studies of the lipopolysaccharide O-antigen and capsular polysaccharide of *Vibrio anguillarum* serotype O:2 111

Structure of a decasaccharide isolated by mild acid degradation and dephosphorylation of the lipopolysaccharide of *Pseudomonas fluorescens* strain ATCC 49271 129

Cell-wall polysaccharides from the marine green alga *Ulva "rigida"* (Ulvales, Chlorophyta) — NMR analysis of ulvan oligosaccharides 161

Structural investigation of a cell-wall galactomannan from *Neurospora crassa* and *N. sitophila* 215

NMR analysis of the structure of the O88 polysaccharide (O88 antigen) of *Escherichia coli* O88:K⁻:H25 223

- Olefin carboxylation
Syntheses of 1-*O*-carboxyalkyl GLA-60 analogues 27
- Oligosaccharides
Cell-wall polysaccharides from the marine green alga *Ulva* "*rigida*" (Ulvales, Chlorophyta) — NMR analysis of ulvan oligosaccharides 161
- O88 polysaccharide
NMR analysis of the structure of the O88 polysaccharide (O88 antigen) of *Escherichia coli* O88:K⁻:H25 223
- Phytoalexin
Syntheses of triglycosyl tetrapeptides and a hexaglycosyl tetrapeptide 81
- Polymerization
Polymerization of 1,2-anhydro-3,4-di-*O*-benzyl- β -L-rhamnopyranose 207
- Pseudomonas*
Structure of a decasaccharide isolated by mild acid degradation and dephosphorylation of the lipopolysaccharide of *Pseudomonas fluorescens* strain ATCC 49271 129
- Regenerated polymer
Tin(IV)-functionalised polymer supports; non-toxic and practical reagents for regioselective acetylation of sucrose 17
- Ruthenium tetroxide
Syntheses of 1-*O*-carboxyalkyl GLA-60 analogues 27
- Starch granules
Acid modification of starch granules in alcohols: reactions in mixtures of two alcohols combined in different ratios 141
- Starch polymorphism
A periodic distribution of the chain length of amylopectin as revealed by high-performance anion-exchange chromatography 151
- Strain Nine Mile
Structural study on a lipopolysaccharide from *Coxiella burnetii* strain Nine Mile in avirulent phase II 175
- Structure
Structural studies of the lipopolysaccharide O-antigen and capsular polysaccharide of *Vibrio anguillarum* serotype O:2 111
- Succinate
NMR analysis of galactoglucan from *Pseudomonas marginalis*: assignment of the ¹H and ¹³C NMR spectra and location of succinate groups 195
- Sucralose
Tin(IV)-functionalised polymer supports; non-toxic and practical reagents for regioselective acetylation of sucrose 17
- Thermodynamic measurements
AM1 calculations on inclusion complexes of cyclomaltoheptaose (β -cyclodextrin) with 1,7-dioxaspiro[5.5]undecane and nonanal, and comparison with experimental results 1
- 2-Thioepisphorose
A nitro sugar derivative route to 2-thioepisphorose and 2-thiosphorose and their remarkable facile epimerization 73
- 2-Thiosphorose
A nitro sugar derivative route to 2-thioepisphorose and 2-thiosphorose and their remarkable facile epimerization 73
- 2-Thio sugar
Characterization and interconversions of 2-*S*-ethyl-2-thio-D-mannose diethyl dithioacetal and the facile epimerization of 2-thio-D-mannopyranose derivatives 53
- 2-Thio sugars
A nitro sugar derivative route to 2-thioepisphorose and 2-thiosphorose and their remarkable facile epimerization 73
- Ulva*
Cell-wall polysaccharides from the marine green alga *Ulva* "*rigida*" (Ulvales, Chlorophyta) — NMR analysis of ulvan oligosaccharides 161
- Ulván
Cell-wall polysaccharides from the marine green alga *Ulva* "*rigida*" (Ulvales, Chlorophyta) — NMR analysis of ulvan oligosaccharides 161
- Vibrio anguillarum*
Structural studies of the lipopolysaccharide O-antigen and capsular polysaccharide of *Vibrio anguillarum* serotype O:2 111
